

## Legal Library 2007 Office 2007 Service Pack 2 Patch Installation Instructions

Please make sure all Windows updates have been installed for Office 2007. Then, "Save" the [Office 2007 Patch](#) and then click, "Run". After the installation is finished, Windows may ask you to restart your system. After restarting, Legal Library should work correctly.

If Legal Library does not work correctly after restarting the system, use one of the following steps:  
(After closing Legal Library and Word)

Users of Windows XP –

Click on Start > Search.

In the Search window, click on, All files and folders > More advanced options > Check the first three check boxes > In the box under, 'All or part of the file name' type in, "normal.dotm" (no quotes). Then, Delete any normal.dotm files that are found. Now start Legal Library.

Users of Windows Vista –

Click on Start > Click in the 'Start Search' box. Then type, "normal.dotm" (no quotes). Then, Delete any normal.dotm files that are found. Now start Legal Library.

If Legal Library still does not work,  
please call 425-820-3348 or 1-800-275-2522.
